

LOBBYING FOR BEER

Brewers Hate to Pay an Extra Dollar Tax Per Barrel.

THEY ARE FIGHTING MONEY'S BILL

The Increased Tax Has Nothing to Do with the Retail Price.

SENATORS FAVOR THE POOLING BILL

Its Chance of Becoming a Law Are Fairly Good—The Nicaragua Canal Bill Comes Up for a Vote Today.

Washington, January 24.—(Special.)—The introduction of the Money bill to increase the tax on beer and its consideration by the ways and means committee in the house, together with the introduction of the same thing in the form of an amendment to the free coinage bill, has caused a lively lobby of gigantic proportions to swoop down upon Washington.

The old-time lobbyists are all here stirring the thing up a little now. They are all stirred up the more money they know the brewers will put out to stop it. Of course, they will all get a slice for their work in preventing its passage, or in attempting to do so.

It is beginning to look like they have stirred the matter up to the boiling point, and the bill may pass before this session. The revenue of the government is falling below the expenditures several million dollars monthly and, unless the income tax receipts fill the gap, something must be done quickly. An increase of the beer tax annually to the revenues of the government, and that, with the \$30,000,000 expected to pour in through the income tax, would carry revenues a little above expenses.

A beer tax is a tax upon a luxury, and, unless brewers would prove a popular tax, it might decrease the number of brewers to a slight extent, but it would not be regretted by the general public. It would not increase the retail price of beer a penny, nor would it cause a contraction of the size of the schooner. A tax could be had at the same old price.

The Money bill is now in the hands of a subcommittee of ways and means, of which Mr. McMillin is chairman. He will confer with Secretary Clarke before reporting. If Mr. Carlisle thinks \$30,000,000 more revenue necessary the bill will be reported favorably. Otherwise it will die in committee.

The bill is a tax upon a luxury, and, unless brewers would prove a popular tax, it might decrease the number of brewers to a slight extent, but it would not be regretted by the general public. It would not increase the retail price of beer a penny, nor would it cause a contraction of the size of the schooner. A tax could be had at the same old price.

years ago. On the 4th of March next, Mr. Pritchard will have a populist for his colleague in the person of Mr. Butler, who was elected at the same time as himself to succeed Senator Ransom, democrat.

The Hawaiian question was kept alive today by a speech from Senator George Carter, Commodore Whiting and Major General Carroll and \$50 a month to the widows of Lieutenant Commander Rhodes, of the navy, and Brigadier General Wessels, of the army.

House bill to authorize the La Porte, Houston and Northern Railway Company to construct a line between Galveston bay, Buffalo Bayou, Creek, in Texas, was taken from the calendar and passed. Also senate bill for the purpose of taking out of the public domain of the state at the world's Columbian exposition to the Columbian museum of Chicago.

Mr. Walsh, in reply to a question by Mr. Chandler, said that the exhibit consisted of photographs and curios collected by the republic after the war in the department in Spanish America, and was a part of the exhibit of the convent of La Rabida. He did not believe that the state department desired to retain them, but that the city of Chicago was exceedingly anxious to secure the collection for its museum. The bill, he said, had been introduced by Senator Palmer.

The senate, after a short executive session, adjourned at 3:30 till tomorrow. Mr. Chandler's bill above mentioned, provides that any person who shall wrongfully tap, or connect a wire with, the telephone or telegraph lines, or any person, company or association, engaged in the transmission of news over telegraph or telephone lines between the states for the purpose of the surreptitious disclosure of confidential communications, shall be fined not more than \$5,000, or imprisoned not exceeding two years or both.

SUNDAY CIVIL BILL

Was Read for Amendments in the House Yesterday.

Washington, January 24.—Beside passing a resolution authorizing an investigation of the management of the offices of architect of the capitol, the house today did nothing but consider in committee of the whole the sundry civil appropriation bill, which came over from yesterday. The reading of the bill for amendments was completed, but owing to the fact that the committee on sundry civil bills had not yet reported, the bill was not taken up for consideration.

The item for the improvement of the Mississippi river evoked a discussion in the house. Mr. Hepburn stated that he objected to the diversion of public funds into the private hands of private enterprise. He said that the improvement of the Mississippi river did not concern the people of the northwestern states. It gave them water communication with Europe by their products were transported to the northwestern states. It gave them water communication with Europe by their products were transported to the northwestern states.

CAN RIDE ONCE MORE

One-Third of the Brooklyn Car Lines Have Resumed.

STRIKERS ARE ABOUT DEFEATED

No More Soldiers Are Considered Necessary to Preserve Order.

THE STATE TROOPS BEHAVE WELL

Only Two Men Have Been Killed by Bullets—Judge Gaynor Orders the Brooklyn Heights Company to Run Cars.

Brooklyn, N. Y., January 24.—The eleventh day of the trolley road strike in this city was unmarked by any scene of great violence. Crowds gathered at various points were easily dispersed. In only one instance were the soldiers compelled to resort to a bayonet charge.

The beginning of the end of the strike, it is thought, was reached today. The strikers played their last card yesterday in ordering out the electrical workmen on all the lines affected. Wholesale wire-cutting and the burning of trolleys were the result. This gave the companies more trouble. Several lines which have been operated for several days were tied up for a time in the early morning. They were started after repairs had been made by new men, and by those who refused to go out. The companies started new lines today, and while normal traffic is not yet restored, cars are operated on all the main arteries of travel.

Smaller branches to outlying districts and cross-country lines are still idle. There were 27 cars in operation on the various lines not completely tied up today. The normal number of these lines is 560, more than twice the number in use. Altogether there were seventeen lines in working order, one less than the usual number. The forty-eight roads combined have a total of about 1,200 cars.

Green Point saw its first car for ten days, and its protesting citizens, who yesterday demanded the forfeiture of charters, were somewhat mollified.

Law and order is not yet completely established, even though cars are able to run with some degree of safety to their occupants. It is definitely decided, however, that no more troops are needed, and the troops now here are expected to restore order.

The Second Death from Bullets. The man, Thomas Carney, who was shot in the battle of Hicks street yesterday afternoon at 4:45 o'clock, died at 10 o'clock, m. today. His was the second death from the bullets of the soldiers.

Whatever criticism the militia receive, they should at least be given credit for their great forbearance during the trying experience of the past few days. They have been subjected to every kind of abuse and ill-treatment. They have been compelled several times to fire volleys into the air, and to stand by while riotous assemblages and to protect themselves from attacks from the houses and windows by rattling bullets. They have been ordered to close all windows and stand back and have been met by derision, and more missiles have been hurled at them than at any other time.

Mr. Money denied that this was the case and asserted that the benefits of the improvement of the Mississippi river did not concern the people of the northwestern states. It gave them water communication with Europe by their products were transported to the northwestern states.

ITS AFFAIRS BADLY TANGLED.

A Birmingham Bank Closes Its Doors.

Birmingham, N. Y., January 24.—At noon the comptroller of the currency assumed charge of the National Broom County bank. This bank was voluntarily closed by its officials this morning. On Tuesday a run, which the bank was totally unprepared to meet, it is asserted that the Chicago Valley bank (state bank), which was also closed, has securities deposited with the Birmingham Savings bank sufficient to meet all obligations. The bank examiners have been at work on the books of the savings bank for three days. They refused to divulge the results of their investigations but it is evident that the affairs of the bank are badly tangled. The withdrawal of deposits at the Birmingham Savings bank continued throughout the day. There was a meeting of the directors of the Chicago Valley bank held at 11 o'clock and the result was the withdrawal of deposits.

Officers of the bank state that there are sufficient securities in the hands of the trustees to meet all obligations. The bank is full and leave a good surplus. The only trouble appears to be that the books are badly mixed up and need a thorough straightening out.

Detected Stephenson, of the local police force, was ordered by Bank Examiner Charles Chubb, near the Chicago Valley Savings bank, which has its office in the Phelps bank building. In company with Officer Heath the detective remained in the vicinity all night. At 4 o'clock this morning Tracey R. Morgan, the treasurer of the bank, was seen to enter the local police station, and a few minutes later he was taken to the Chicago Valley Savings bank, which has its office in the Phelps bank building. In company with Officer Heath the detective remained in the vicinity all night. At 4 o'clock this morning Tracey R. Morgan, the treasurer of the bank, was seen to enter the local police station, and a few minutes later he was taken to the Chicago Valley Savings bank, which has its office in the Phelps bank building.

Mr. Morgan was taken to the Chicago Valley Savings bank, which has its office in the Phelps bank building. In company with Officer Heath the detective remained in the vicinity all night. A BACK DOWNOR WAR

Mexicans Talk Sharply to Poor Little Guatemala About the Boundary.

STUDENTS ANXIOUS TO GET A FIGHT

They Prefer a Campaign to Their Lectures and Examinations.

PLENTY OF VOLUNTEERS ARE ASSURED

All Through the Country the Mexicans Are Stirred by a Patriotic Sentiment—An American to Raise a Legion.

City of Mexico, January 24.—It was given out at the palace on Tuesday that the official reply of Guatemala to Mexico's demand had arrived on Mexican soil, by the way of the Tehuantepec railroad, and will be at hand in this city today. It will be closely studied, and an answer to it will be expected to follow shortly. There is apparently no recourse but war, unless Guatemala completely backs down, and there is no probability of her doing so.

After a very stormy cabinet meeting Monday night, President Diaz, who has been through the ordeal, through the minister, that he would not concede one iota, and that Guatemala would have to accede to Mexico's demand or suffer the consequences. Other Central American representatives here at a meeting Monday night, President Diaz, who has been through the ordeal, through the minister, that he would not concede one iota, and that Guatemala would have to accede to Mexico's demand or suffer the consequences.

These troops began advancing today, and the same night, the first of transports had nearly completed landing the troops on the afternoon of January 21st, and a landing of troops was also nearly effected. The weather was clear, and the conditions favorable. English, German and Chinese keepers who were found in Shantung lighthouse were landed under such conditions and pay and instructed to continue the usual lights.

CHINESE TROOPS RETREATED

When the Japanese Landed at Yung-chung.

London, January 24.—A Central News dispatch from Tokio says: "The ordinary budget has passed the imperial diet. The ordinary budget has passed the imperial diet. The ordinary budget has passed the imperial diet. The ordinary budget has passed the imperial diet."

General Sakuma reports from Yung-chung under date of January 21st as follows: "The Japanese landed at Yung-chung on the morning of January 21st. The Japanese landed at Yung-chung on the morning of January 21st. The Japanese landed at Yung-chung on the morning of January 21st."

The students who made the demonstration in the country's service, many signatures were taken after which several banners of independence having been captured. A procession was formed and marched through the streets crying: "Vive la Mexico, vive la liberty!"

A prominent American here has offered to raise a legion of Americans to fight against Guatemala if war is declared. The government has contracted for the purchase of all the arms and munitions of the finest make. There is much activity in the medical department of the army.

Should war be declared, General Bernier, chief of the Mexican army, will be commander of the Mexican forces. The students who made the demonstration in the country's service, many signatures were taken after which several banners of independence having been captured. A procession was formed and marched through the streets crying: "Vive la Mexico, vive la liberty!"

A MEXICAN DUDE ON EXHIBITION

The Pulque, the National Drink—Its Discovery by a Woman—Mescal the Ruin of the Talcos.

AN LUIS POTOSI, Mexico, January 25.—(Special Correspondence.)—A city of 80,000 inhabitants without waterworks is something of a curiosity. The city of 80,000 inhabitants without waterworks is something of a curiosity. The city of 80,000 inhabitants without waterworks is something of a curiosity.

Of course the want if very well supplied by the itinerant pedlar, who, with his earthen jug fastened upon a shoulder, goes round from door to door, and delivers drinking water to those who prefer it to pulque.

As a newcomer I selected the pulque, for I was curious to see how it tasted. All the way down from Monterey I had seen the various forms of light plants with the many unpronounceable names with which I will not trouble the reader. The pulque is a beverage made from the juice of the agave plant, and is a very well supplied by the itinerant pedlar, who, with his earthen jug fastened upon a shoulder, goes round from door to door, and delivers drinking water to those who prefer it to pulque.

When the sun rises, and the leaves become discolored by their contents, the expert native cuts a small hole in the gourd basin, and by the use of a rude siphon the entire liquid drops down with the gourd, from which it is drawn out in its native state, and drunk as a beverage. It is a cooling tonic, and of excellent dietetic, so much so that it is stated that those who drink it are never troubled with kidney ailments. This is the national drink of Mexico, being the Mexican what beer is to the Germans, and port wine to the English.

There would almost be a revolution, said a native, "if the trains bringing in this beverage should fail to arrive."

The Eve of Mexican Tradition, likewise lays to the charge of woman the discovery of the terrible secret of the agave. Nocht, a female, more curious than others about her discovered the extra and offering it to the Talco, he was so charmed that he made her his wife. The result of the intoxication produced by the new drink that the unfortunate king was the last of his race, and the Talcos became the rulers of the country.

A FLAG OF TRUCE.

Harmony Now Prevails Between the Aldermen and Finance Committee.

A COMPROMISE REACHED YESTERDAY

A Harmonious Meeting of the Aldermanic Board.

THE REPORT WILL BE ACCEPTED

Very Radical Changes Made—Mr. Inman Was Present at the Meeting and Concurred in Its Action.

A flag of truce is now floating over the board of aldermen and the finance committee. After a long and stormy session, the two bodies yesterday agreed to a compromise which will bring peace to the city.

And those who witnessed the battle between the two bodies yesterday are of the opinion that the war is now over and that peace will prevail after the next meeting of the general council.

Quite entertaining and at times warm, was the meeting of the board during which a gap in the fence which has been dividing the two bodies from the finance committee was closed.

But before the compromise was reached, a very interesting and warm, were presented for the consideration of those who were looking on.

It was the day for the regular meeting of the board, and in view of the recent division between the two bodies, quite an interest attached to the meeting.

The board had considered the appropriation sheet at the called session on Tuesday, and the division had been produced.

The finance committee, in its conference with the board on Wednesday, had been unable to bring about an adjustment, but on the contrary the breach had been widened.

So it was that those who have kept track of the work of the board as a whole to know what the board would do at the regular meeting, as all business except the sheet showing the warrants drawn had been disposed of.

Mr. Harralson in the chair. By some accident Mayor Pro Tem Iroyles was absent and Mr. Phil Harralson was placed in the chair. Smilingly he walked to the chair the mayor pro tem occupies, but as he dropped into the seat he was greeted by a look of stern determination.

"The board will come to order," said he, as he dropped his clenched fist, in the absence of a gavel, on the desk.

In obedience to instructions Clerk Woodward called the roll and Mr. Howell, Mr. Colvin, Mr. Harris and Mr. Robert responded.

The papers were spread upon the clerk's table and showed a number that no one thought of, some of which had been brought back to the board for consideration and future action.

One of the papers was the resolution which passed the general council at the last meeting appropriating \$100 for a stenographer for the investigation at police headquarters, but which was non-concurred in by the board of aldermen.

"The first step toward compromise," said Mr. Howell, "is that we should understand each other."

"I move," said Mr. Howell, "that we reconsider our action on that Tuesday."

"If you wish," said Clerk Woodward, "I will read the reasons assigned by the board of aldermen for their action on Tuesday."

"That's not necessary," said Mr. Howell, "I will read the reasons assigned by the board of aldermen for their action on Tuesday."

"That's not necessary," said Mr. Howell, "I will read the reasons assigned by the board of aldermen for their action on Tuesday."

SOUTHERN WOMEN.

Paine's Celery Compound Has Made Thousands Well.

Mr. Jake Reder, of Crestline, O., and his sister, Miss Rose Reder, of Akron, O., are visiting their son, Mrs. H. Reder, at the residence of Rabb'l L. Reich, at 15 East Fair street.

A pretty home wedding was that which occurred at the home of Captain C. A. Barrett, No. 112 Mangum street, Wednesday evening, when Miss Jessie Young was united in marriage to Mr. W. C. Morrow.

The ceremony was performed by Rev. A. C. Ward, in the presence of members of the family and a few friends, and at 6:30 o'clock Mr. and Mrs. Morrow left for a wedding journey through Florida.

There are no "ifs" or "ands" in the letter that Mr. John D. Myers, of Union Bridge, Md., writes, telling of his wife's complete recovery of health by the use of the greatest remedy yet known—Paine's Celery Compound.

It doesn't take many words for a man to tell what he thoroughly believes. And he tells his story in a straightforward, right-to-the-point way that convinces every one.
